5 Reasons Districts Choose SPIRE® Reading Intervention to Close the Gap for Tier 2 & 3 Students

SPIRE is a complete multisensory Orton–Gillingham based reading intervention solution aligned with the science of reading that empowers PreK–8+ Texas learners in tiers 2 & 3 to learn to read.

1

Science of Reading and Structured Literacy

SPIRE delivers structured literacy through explicit, systematic, and multisensory instruction, aligning with the Texas Dyslexia Handbook. Our approach ensures mastery of phonemic awareness, phonics, fluency, vocabulary, and comprehension.

2

Access for All Learners

Based on the Orton–Gillingham approach, SPIRE provides multisensory instruction to teach language and literacy, making it effective for diverse learners, including those with dyslexia and English learners.

3

Emergent Bilingual Student Support

The AI-driven EPS Reading Assistant for SPIRE provides independent, adaptive-reading practice in English and Spanish with real-time corrective feedback to build oral reading fluency.

4

Comprehensive Assessments

SPIRE comprehensively covers all five pillars of reading: phonemic awareness, phonics, fluency, vocabulary, and comprehension. Our dyslexia screener in English and Spanish tracks individual student progress, ensuring tailored intervention.

5

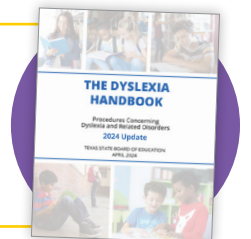

Easy to Implement

SPIRE is easy to implement, with comprehensive training that prepares educators and administrators to deliver effective reading instruction in just one day. This sustainable and cost-effective program ensures immediate impact.

For districts across Texas, the reasons to choose SPIRE are clear. **Districts have reported significant literacy gains within a year**, demonstrating SPIRE’s effectiveness. **Empower your students with the ability to learn to read today!**

Aligned with the best practices and guidelines of the **Texas Dyslexia Handbook**.
